Summary

I am a recently graduated Computer Science professional with experience in front-end development, gained at an e-commerce agency, and back-end development, at a public management company. I have a studious and proactive profile, always striving to learn new technologies and enhance my skills.

Experience

Jr Web Developer, Webline Consultoria LTDA, Marília - SP   2024 - Present
I work on system development using PHP, Laravel, and MySQL. My focus is on creating
tools that optimize administrative processes, improve efficiency, and promote modernization
in public management.

Front End Developer Jr I, Agência Auaha, Marília - SP   2022 — 2024
I worked on e-commerce development using the Tray and VTEX platforms, focusing on
HTML, CSS, JavaScript, and React to deliver customized and efficient solutions.

Education

Computer Science, Centro Universitário Eurípedes de Marília, Marília - SP   2021 — 2024
I earned a 40% regressive discount scholarship by taking the entrance exam, and
throughout the course, I developed various academic projects that strengthened my
practical skills.

High School with Technical Degree, Etec - Antônio Devisate, Marília - SP   2018 — 2020
I secured a spot at Etec through the entrance exam, where I completed the Integrated IT
and High School program, combining programming classes with regular high school
education over three years.

Language Skills

Portuguese — Mother Language
English — Advanced
